beprojectlab

FREE TEMPLATE

Your project on one page

The minimum structure to stop improvising. Fill it in in 30 minutes and review it every week.

Project: Date:

01 Goal

What do you want to achieve, and by when? One sentence you can measure.

Example: "Open the studio with 20 students before March."

02 Scope

What is in and, above all, what is not? Saying no is also progress.

Example: "In: classes and an online shop. Out: workshops for companies, this year."

IN	OUT

03 Milestones

3 to 5 checkpoints with a date. They warn you that something is wrong before it is too late.

Example: "Space ready: 15 Dec. Website: 15 Jan. First class: 1 Mar."

	MILESTONE	DATE
1		
2		
3		
4		
5		

04 Rhythm

A weekly 30-minute review: what got done, what comes next and what is blocked.

Example: "Every Monday at 9:00, with a coffee and this page."

WHEN I REVIEW	WITH WHOM
